FY22 Basic Firefighter Training Student Attendance Document

Minnesota Fire Service:

Re: Firefighter Training Initiative

The Minnesota Board of Firefighter Training and Education, for fiscal year 2022, will provide reimbursement for any fire department firefighter taking Basic Firefighter training (who has not already been reimbursed) with passing certification within two fiscal years (June 30, 2023).

The MBFTE will reimburse fire departments for up to 100% of the MBFTE's allowance for Basic Firefighter Training (Firefighter 1, and/or Firefighter 2, and/or Hazmat OPS 1072) and the associated certification tests ***provided***:

- The student attendee complete the training course and pass the accompanying IFSAC certification tests prior to June 30, 2023.

If the student attendee does not complete the training and pass the associated IFSAC certification tests, the Fire Department will not be reimbursed through the Basic Firefighter Training fund, and would need to seek reimbursement using their MBFTE "per firefighter" award.

It is mandatory that the student attendee and the student's fire chief sign below attesting the understanding of the above statements relating to the reimbursement for non-completion of the Basic Firefighter Training funding.
